

SOFTWARE • AUTOMATION • AI CONSULTING

Modern technology for **growing** businesses.

We help small and medium-sized businesses use software, automation, and AI to work smarter, scale faster, and stay competitive — without enterprise budgets or enterprise timelines.

WHAT WE BUILD

01

Custom Software

Applications built for your workflows, not off-the-shelf compromises.

02

Workflow Automation

Connect your tools and eliminate repetitive tasks across your team.

03

AI Implementation

Practical machine learning that solves real problems, not hype.

04

Cloud Integration

Modern infrastructure — secure, scalable, accessible anywhere.

05

Data Integration

Unify scattered data sources into one source of truth.

06

Technical Advisory

Guidance on roadmaps, vendor selection, and long-term strategy.

HOW AN ENGAGEMENT RUNS

01

Discovery call

FREE

Honest fit check, same call.

02

Scoped proposal

FREE

Fixed price & timeline.

03

Weekly build

CORE WORK

Clickable progress, every week.

04

Review & launch

DELIVERY

Tested, trained, deployed.

05

Support

ONGOING

Bug-fix window, then a clear next step.

WHY US

- **Experience, not just prompting**
We know what "done right" looks like, not just what looks done.
- **AI where it earns its keep**
Faster and cheaper to build — still designed and owned by engineers.
- **Fixed scope, no surprises**
One price, one timeline, agreed before work starts — not after.
- **Small enough to be direct**
You talk to the person building your tool. No sales layer.

Let's find out if it's a fit.

Free discovery call — the one where we tell you honestly if we're the right call at all.
